

## Monkfield Medical Practice

MMP are please to confirm that we have commenced calling our over 80's population to have their COVID vaccination.

We are teamed up with a group of Surgeries to enable us to deliver the vaccine from an approved local site within St Neots, enabling the practice to continue to deliver essential and emergency care to our patients, particularly those more at risk from COVID -19 and other serious complications.

Invitations have and will continue to go out to this week inviting the over 80's to book an appointment.

Initially these will be over SMS however we will be identifying those that do not have a mobile phone and contacting them direct.

In addition to this local option, you may also be contacted this week inviting you to attend one of the seven mass vaccination centre set up, ours being Stevenage. It is patient choice as to which one they choose to attend.

For further information relating to the vaccine please see the below link:

<https://www.cambridgeshireandpeterboroughccg.nhs.uk/easysiteweb/getresource.axd?assetid=22965&type=0&servicetype=1>

The public have an important part to play to help us to do this:

- please don't contact the NHS to seek a vaccine, we will contact you;
- when we do contact you, please attend your booked appointments;
- and please continue to follow all the guidance to control the virus and save lives.
